

'Cig-Arrête® Anti-Vandal Cage (Part No CSA-AVC)

Description

The Cig-Arrête Anti-Vandal Cage offers a high degree of physical protection to each Cig-Arrête Sensor unit, in areas that may be subject to wilful damage and vandalism.

The cages can be retrofit following the installation of your Cig-Arrête System and is suitable for the following products:

CSA-SGA * CSA-FUV * CSA-DUM

Product Features

The Cig-Arrête Anti-Vandal Cage is manufactured using a high grade steel, with fully welded joints to provide a robust cage structure. The steel cage is finished with a high gloss white powder coating paint to maintain its appearance throughout its life.

The cage base plate is manufactured from mild steel with the same powder coat finish.

To ease installation or even retrofit after the Cig-Arrête Sensor unit has been installed, the cage base plate is split into two halves which can be inserted either side of the sensor base once the fixing screws have been slackened.

Anti-Tamper screws are used to secure the cage to the base plates to further avoid the possibility of vandalism.

CSA-AVC DIMENSIONS

CSA-AVC
Note:

Part No CSA-AVC is suitable for all Cig-Arrête Slave Sensor Units.

Part No CSA-AVC3 must be used for all SD Evolution Master units due to increased depth and shape of the products—these are:

CSA-GOV, CSA-FOV, CSA-FSU, CSA-FGV, CSA-FGS, CSA-FSV, CSA-GSV
